

Q/A about dbus

How to run amplayer2 with dbus?

Step1: Compile amplayer2 in packages,using command: make p.ampalyer2.all
CCFLAG=dbus

Step2:Copy all libs and binary to your directory for running.such as
dbus-daemon,dbus-monitor,amplayer2,etc...

Step3:Must start dbus-dameon before start amplayer2. You can simply run
dbus-dameon by Use a script. As follows:

```
if [ ! -f "/var/lib/dbus/machine-id" ]; then  
  dbus-uuidgen > /var/lib/dbus/machine-id  
fi
```

```
if test -z "$DBUS_SESSION_BUS_ADDRESS" ; then  
  eval `dbus-launch --sh-syntax --exit-with-session`  
  echo "D-Bus per-session daemon address is: $DBUS_SESSION_BUS_ADDRESS"  
  echo $DBUS_SESSION_BUS_ADDRESS > /dbusaddr  
fi
```

Step4: Export DBUS_SESSION_BUS_ADDRESS if you want to run dbus-monitor in
another secureCRT session.

Step5: Run amplayer2,using command: amplayer2 -b -m dbus
